PROJECTS UNDERTAKEN

Harman International

Project Name	:	**Harman HUB – Intranet Web Portal - RWD**
Tools	:	Photoshop, Illustrator, SharePoint-2013
Role	:	UI / Visual Designer
Site URL	:	Intranet Portal
Brief	:	It was a Harman's Intranet Portal project with RWD features. The main responsibilities was to create UI and Visual mockups for desktop and mobile device screens as per the latest design trends, support on other design requirements like banners, icons, creating design color theme and page using SharePoint tools & web parts.
		This portal is all about organizations internal information, updates, news and many other features like employee training, learning, leaves, HR information, employee policies etc.

Project Name	:	**Services.harman.com - RWD**
Tools	:	Photoshop, Illustrator
Role	:	UI / Visual Designer
Site URL	:	https://services.harman.com/
Brief	:	It was a web design project with RWD features. The objective was to create UI, Visual mockups and latest user experience for both the web and mobile screens as per the latest design trend. The design process was followed by the wireframes from the UX team and included all the branding guidelines of Harman in terms of creating a unified and consistent look and feel throughout the application.
		Also coordinated with the development team to ensure the correct implementation of design and provided other necessary design supports during the development.
		This portal provides information about all Harman's services and solutions for automakers, consumers, worldwide enterprises including connected car systems, audio & visual products and connected services.

Project Name	:	**The next wave - RWD**
Tools	:	Photoshop, Illustrator
Role	:	UI / Visual Designer
Site URL	:	https://thenextwave.harman.com/
Brief	:	It was a web design project with RWD features.

This website is about video interview series and conversations with business leaders, entrepreneurs and visionaries who are pushing the envelope on consumer experiences every day hosted by HARMAN's Chairman of the Board, Young Sohn.

The responsibilities was to create page UI, visual design mockups, icons, banners and other required design assets. I was also responsible for creating style guide following branding guidelines and HTML/CSS mockups for some parts of website.

Area of responsibilities at Harman:

Interact with internal customers to determine and understand the scope of a project and responsible for creating the overall visual layout and design implementation for intranet websites, sub-sites and pages. Also work with a variety of media to create visual products that convey a message and are visually pleasing, build or redesign websites, maintaining & enhancement of intranet websites, and validate final deliverables with the customer.

Provide Graphic Design expertise for projects like internal communications and events that require conceptualization, information visualization. Creating icons, posters, newsletters, banners, infographics, PPT presentation design and other print collaterals with the objective of ensuring quality and effectiveness of communication design.

Previous Organizations

Project Name	:	**EXOS Mobile App / RWD – ServiceLink –** Cognizant Technology Solutions
Site URL	:	https://www.svclnk.com/exos/consumer-digital
Brief	:	It was a project of iOS mobile app and RWD. The objective was to create visual mockups and latest user experience for both the web and mobile app as per the iOS standard for the targeted device. The design process was followed by the wireframes and included all the branding guidelines shared by the client. I was responsible for creating visual design screens, other UI elements and icons.

Project Name	:	**DiamondCabinets - Masterbrand –** Cognizant Technology Solutions
Site URL	:	https://www.diamondcabinets.com/
Brief	:	Diamond Cabinets provide innovative cabinets solutions to the organization that possess superior strength and designer inspired colors to fit any style. It was a re-design project to enhance the user experience for their existing web site. The objective was to create mockups with latest design trends and user experience.

Project Name	:	**Aashirvaad Svasti Ghee –** ITC Infotech India Limited
Site URL	:	www.aashirvaadsvasti.in
Brief	:	Aashirvaad Svasti Ghee was a website design project RWD features. The main focus in this project was to have the look and feel of graphics and visual design as per the Indian traditional style. I was responsible for creating UI, visuals, marketing artifacts and other graphic design assets of this project.
